(54) Title: A SYSTEM AND METHOD FOR DISTRIBUTING PROMOTION MESSAGES TO A COMMUNICATION TERMINAL

(57) Abstract: This invention relates to a system and a method for distributing an invitation to one or more communication terminals connected in a wireless communications network. The system and method enables a user of a communication terminal to invite other users of communication terminals to a shared media experience, such as watching a television transmission at the same time, while the users may be at different locations.
